Notes to Consolidated Financial Statements (unaudited)

1. Accounting Policies

These unaudited condensed consolidated financial statements are prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) applicable to interim financial statements. While these statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by United States (U.S.) generally accepted accounting principles (U.S. GAAP) for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the financial statement disclosures in our 2018 Form 10-K.

We use the same accounting policies in preparing quarterly and annual financial statements. Unless otherwise noted, amounts presented within the Notes to Consolidated Financial Statements refer to our continuing operations.

We operate as a single segment that includes all of our continuing operations, which are designed to enable guests to purchase products seamlessly in stores or through our digital channels. Nearly all of our revenues are generated in the U.S. The vast majority of our long-lived assets are located within the U.S.

Due to the seasonal nature of our business, quarterly revenues, expenses, earnings, and cash flows are not necessarily indicative of the results that may be expected for the full year.

2. Revenues

General merchandise sales represent the vast majority of our revenues. We also earn revenues from a variety of other sources, most notably credit card profit sharing income from our arrangement with TD Bank Group (TD).

Revenues (millions)	Three Months Ended	
	May 4, 2019	May 5, 2018
Apparel and accessories ^(a)	\$ 3,290	\$ 3,113
Beauty and household essentials ^(a)	4,971	4,617
Food and beverage	3,722	3,587
Hardlines	2,385	2,313
Home furnishings and décor	3,001	2,903
Other	32	23
Sales	17,401	16,556
Credit card profit sharing	160	167
Other	66	58
Other revenue	226	225
Total revenue	\$ 17,627	\$ 16,781

^(a) For the three months ended May 4, 2019, and May 5, 2018, we reclassified certain non-apparel baby merchandise sales totaling \$456 million and \$390 million, respectively, from Apparel and Accessories to Beauty and Household Essentials.

We record almost all retail store revenues at the point of sale. Digitally originated sales may include shipping revenue and are recorded upon delivery to the guest or upon guest pickup at the store. Sales are recognized net of expected returns, which we estimate using historical return patterns and our expectation of future returns. As of May 4, 2019, February 2, 2019, and May 5, 2018, the accrual for estimated returns was \$124 million, \$116 million, and \$119 million, respectively. We have not historically had material adjustments to our returns estimates.

Revenue from Target gift card sales is recognized upon gift card redemption, which is typically within one year of issuance.

(millions)	February 2, 2019	Gift Cards Issued During Current Period But Not Redeemed ^(a)	Revenue Recognized From Beginning Liability	May 4, 2019
Gift card liability	\$ 840	\$ 213	\$ (322)	\$ 731

^(a) Net of estimated breakage.

Credit card profit sharing – We receive payments under a credit card program agreement with TD. Under the agreement, we receive a percentage of the profits generated by the Target Credit Card and Target MasterCard receivables in exchange for performing account servicing and primary marketing functions. TD underwrites, funds, and owns Target Credit Card and Target MasterCard receivables, controls risk management policies, and oversees regulatory compliance.

3. Fair Value Measurements

Fair value measurements are reported in one of three levels reflecting the valuation techniques used to determine fair value.

Fair Value Measurements - Recurring Basis			Fair Value at		
(millions)	Classification	Pricing Category	May 4, 2019	February 2, 2019	May 5, 2018

Interest rate swaps	Other Noncurrent Assets	Level 2	23	10	—
Liabilities					
Interest rate swaps	Other Current Liabilities	Level 2	1	3	—
Interest rate swaps	Other Noncurrent Liabilities	Level 2	—	—	10

Significant Financial Instruments not Measured at Fair Value ^(a)	May 4, 2019		February 2, 2019		May 5, 2018	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(millions)						
Long-term debt, including current portion ^(b)	\$ 11,243	\$ 12,015	\$ 10,247	\$ 10,808	\$ 10,442	\$ 10,782

^(a) The carrying amounts of certain other current assets, commercial paper, accounts payable, and certain accrued and other current liabilities approximate fair value due to their short-term nature.

^(b) The fair value of debt is generally measured using a discounted cash flow analysis based on current market interest rates for the same or similar types of financial instruments and would be classified as Level 2. These amounts exclude commercial paper, unamortized swap valuation adjustments, and lease liabilities.

4. Commercial Paper and Long-Term Debt

During the three months ended May 4, 2019, we issued \$1,000 million of 10-year unsecured fixed rate debt at 3.375 percent, in advance of the June 2019 maturity of \$1,000 million of 2.3 percent unsecured fixed rate debt.

We obtain short-term financing from time to time under our commercial paper program. For the three months ended May 4, 2019, the maximum amount outstanding was \$744 million, and the average daily amount outstanding was \$140 million at a weighted average annual interest rate of 2.4 percent. For the three months ended May 5, 2018, the maximum amount outstanding was \$658 million, and the average daily amount outstanding was \$127 million at a weighted average annual interest rate of 1.8 percent. As of May 4, 2019, and May 5, 2018, no balances were outstanding.

5. Derivative Financial Instruments

As required, we adopted Accounting Standards Update (ASU) No. 2017-12—*Targeted Improvements to Accounting for Hedging Activities (Topic 815)*, as of February 3, 2019. The new standard did not affect our consolidated net earnings, financial position, or cash flows.

Our derivative instruments consist of interest rate swaps used to mitigate interest rate risk. As a result, we have counterparty credit exposure to large global financial institutions, which we monitor on an ongoing basis. Note 3 provides the fair value and classification of these instruments.

In March 2019, we entered into interest rate swaps with a total notional amount of \$1,000 million. With the addition of these swaps, as of May 4, 2019, we were party to seven interest rate swaps with notional amounts totaling \$2,500 million, compared with three interest rate swaps with notional amounts totaling \$1,250 million as of May 5, 2018. We pay a variable rate and receive a fixed rate under each of these agreements. All of the agreements are designated as fair value hedges, and all were perfectly effective during the three months ended May 4, 2019, and May 5, 2018. The gains and losses on the interest rate swaps and underlying debt recognized in Net Interest Expense were immaterial for each period presented.

The notional amounts of our interest rate swaps approximate the carrying amount of the associated debt primarily because the cumulative hedging adjustments included in the debt carrying amount were immaterial in each period presented.

6. Share Repurchase

We periodically repurchase shares of our common stock under a board-authorized repurchase program through a combination of open market transactions, accelerated share repurchase (ASR) arrangements and other privately negotiated transactions with financial institutions.

(millions, except per share data)	Three Months Ended	
	May 4, 2019	May 5, 2018
Total number of shares purchased	3.6	6.9
Average price paid per share	\$ 76.98	\$ 71.24
Total investment	\$ 277	\$ 494

Note: Activity related to the first quarter 2019 and 2018 ASR arrangements described below is omitted because the transactions were not fully settled as of May 4, 2019, and May 5, 2018, respectively.

During the first quarter of 2019, we entered into an ASR to repurchase \$275 to \$400 million of our common stock under the existing \$5 billion share repurchase program. Under the agreement, we paid \$400 million and received an initial delivery of 3.0 million shares, which were retired, resulting in a \$247 million reduction to Retained Earnings. As of May 4, 2019, \$153 million is included as a reduction to Additional Paid-in Capital.

During the first quarter of 2018, we entered into an ASR to repurchase \$225 to \$425 million of our common stock. Under the agreement, we paid \$425 million and received an initial delivery of 2.9 million shares, which were retired, resulting in a \$200 million reduction to Retained Earnings. As of May 5, 2018, \$225 million was included as a reduction to Additional Paid-in Capital. Upon settlement in the second quarter of 2018, we received an additional 0.2 million shares, which were retired, and \$200 million for the remaining amount not settled in shares. In total, we repurchased 3.1 million shares under the ASR for a total cash investment of \$225 million (\$73.06 per share).

7. Pension Benefits

We provide pension plan benefits to eligible team members.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

First quarter 2019 includes the following notable items:

- GAAP earnings per share from continuing operations and adjusted earnings per share were \$1.53.
- Total revenue increased 5.0 percent, driven by a comparable sales increase and sales from new stores.
- Comparable sales increased 4.8 percent, driven by a 4.3 percent increase in traffic.
 - Comparable store sales grew 2.7 percent.
 - Digital channel sales increased 42 percent, contributing 2.1 percentage points to comparable sales growth.
- Operating income of \$1,135 million was 9.0 percent higher than the comparable prior-year period.

Sales were \$17,401 million for the three months ended May 4, 2019, an increase of \$845 million, or 5.1 percent, from the same period in the prior year. Operating income for the three months ended May 4, 2019, increased by \$94 million, or 9.0 percent, from the same period in the prior year to \$1,135 million. The Analysis of Results of Operations discussion provides more information. Operating cash flow provided by continuing operations was \$323 million for the three months ended May 4, 2019, a decrease of \$189 million, or 36.9 percent, from \$512 million for the three months ended May 5, 2018. Refer to the Operating Cash Flows discussion within the Liquidity and Capital Resources section of MD&A on page 17 for additional information.

Earnings Per Share from Continuing Operations	Three Months Ended		
	May 4, 2019	May 5, 2018	Change
GAAP diluted earnings per share	\$ 1.53	\$ 1.33	15.1%
Adjustments	—	(0.01)	
Adjusted diluted earnings per share	\$ 1.53	\$ 1.32	15.9%

Note: Amounts may not foot due to rounding. Adjusted diluted earnings per share from continuing operations (Adjusted EPS), a non-GAAP metric, excludes the impact of certain items. Management believes that Adjusted EPS is useful in providing period-to-period comparisons of the results of our continuing operations. A reconciliation of non-GAAP financial measures to GAAP measures is provided on page 15.

For the trailing twelve months ended May 4, 2019, after-tax return on invested capital from continuing operations (ROIC) was 14.3 percent, compared with 15.2 percent for the trailing twelve months ended May 5, 2018. Excluding the discrete impacts of the Tax Cuts and Jobs Act of 2017 (Tax Act), ROIC was 14.1 percent and 13.5 percent for the trailing twelve months ended May 4, 2019, and May 5, 2018, respectively. The calculation of ROIC is provided on page 16.

Note: Gross margin rate is calculated as gross margin (sales less cost of sales) divided by sales. All other rates are calculated by dividing the applicable amount by total revenue.

Sales

Sales include all merchandise sales, net of expected returns, and gift card breakage. Comparable sales is a measure that highlights the performance of our stores and digital channel by measuring the change in sales for a period over the comparable, prior-year period of equivalent length. Comparable sales include all sales, except sales from stores open less than 13 months, digital acquisitions we have owned less than 13 months, stores that have been closed, and digital acquisitions that we no longer operate. Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies. Digitally originated sales include all sales initiated through mobile applications and our websites. Our stores fulfill the majority of digitally originated sales, including shipment from stores to guests, store pick-up or drive-up, and delivery via our wholly-owned subsidiary, Shipt. Digitally originated sales may also be fulfilled through our distribution centers, our vendors, or other third parties.

The increase in sales during the three months ended May 4, 2019, is due to a comparable sales increase of 4.8 percent and the contribution from new stores.

Note 2 to the Consolidated Financial Statements provides sales by product category. The collective interaction of a broad array of macroeconomic, competitive, and consumer behavioral factors, as well as sales mix, and transfer of sales to new stores makes further analysis of sales metrics infeasible.

We monitor the percentage of purchases that are paid for using REDcards (REDcard Penetration) because our internal analysis has indicated that a meaningful portion of the incremental purchases on REDcards are also incremental sales for Target. Guests receive a 5 percent discount on virtually all purchases when they use a REDcard at Target.

REDcard Penetration	Three Months Ended

Note: Amounts may not foot due to rounding.

Gross Margin Rate

For the three months ended May 4, 2019, our gross margin rate was 29.6 percent compared with 29.8 percent in the comparable period last year. The decrease was primarily due to increased digital fulfillment and supply chain costs, partially offset by the benefit of merchandising strategies, including cost savings initiatives and efforts to improve pricing and promotions.

Selling, General, and Administrative Expense Rate

For the three months ended May 4, 2019, our SG&A expense rate was 20.8 percent compared with 21.1 percent in the comparable period last year. The decrease reflects technology-related cost savings and a year-over-year benefit due to timing of marketing campaigns, neither of which was individually significant. In addition, broad expense control, including store labor productivity, offset pressure from wage growth.

Depreciation and Amortization Expense Rate

For the three months ended May 4, 2019, our depreciation and amortization (exclusive of depreciation included in cost of sales) expense rate was 3.3 percent compared with 3.4 percent in the comparable period last year. The decrease was primarily due to the rate impact of higher sales in 2019.

Other Performance Factors

Net Interest Expense

Net interest expense from continuing operations was \$126 million and \$121 million for the three months ended May 4, 2019, and May 5, 2018, respectively. The increase is primarily due to a higher average debt balance during the three months ended May 4, 2019, as compared with the prior-year period.

Provision for Income Taxes

Our effective income tax rate from continuing operations for the three months ended May 4, 2019, was 22.4 percent compared with 22.6 percent for the comparable period last year.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This metric excludes certain items presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative to, generally accepted accounting principles in the U.S. (GAAP). The most comparable GAAP measure is diluted earnings per share from continuing operations. Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently, limiting the usefulness of the measure for comparisons with other companies.

^(a) Represents certain income tax matters not related to current period operations.

Earnings from continuing operations before interest expense and income taxes (EBIT) and earnings before interest expense, income taxes, depreciation and amortization (EBITDA) are non-GAAP financial measures which we believe provide meaningful information about our operational efficiency compared with our competitors by excluding the impact of differences in tax jurisdictions and structures, debt levels, and for EBITDA, capital investment. These measures are not in accordance with, or an alternative to, GAAP. The most comparable GAAP measure is net earnings from continuing operations. EBIT and EBITDA should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate EBIT and EBITDA differently, limiting the usefulness of the measure for comparisons with other companies.

^(a) Represents total depreciation and amortization, including amounts classified within Depreciation and Amortization and within Cost of Sales.

We have also disclosed after-tax ROIC, which is a ratio based on GAAP information. We believe this metric is useful in assessing the effectiveness of our capital allocation over time. Other companies may calculate ROIC differently, limiting the usefulness of the measure for comparisons with other companies.

Analysis of Financial Condition

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$1,173 million at May 4, 2019, compared with \$1,060 million for the same period in 2018. Our cash and cash equivalents balance includes short-term investments of \$419 million, \$769 million, and \$311 million as of May 4, 2019, February 2, 2019, and May 5, 2018, respectively. Our investment policy is designed to preserve principal and liquidity of our short-term investments. This policy allows investments in large money market funds or in highly rated direct short-term instruments that mature in 60 days or less. We also place dollar limits on our investments in individual funds or instruments.

Capital Allocation

We follow a disciplined and balanced approach to capital allocation based on the following priorities, ranked in order of importance: first, we fully invest in opportunities to profitably grow our business, create sustainable long-term value, and maintain our current operations and assets; second, we maintain a competitive quarterly dividend and seek to grow it annually; and finally, we return any excess cash to shareholders by repurchasing shares within the limits of our credit rating goals.

Operating Cash Flows

Operating cash flow provided by continuing operations was \$323 million for the three months ended May 4, 2019, compared with \$512 million for the same

period in 2018. The operating cash flow decrease is primarily due to higher cash settlement of accounts payable during the three months ended May 4, 2019, compared with the comparable prior-year period, driven by elevated inventory and accounts payable levels as of February 2, 2019, partially offset by a decrease in inventory during the three months ended May 4, 2019.

Inventory

Inventory was \$9,060 million as of May 4, 2019, compared with \$9,497 million and \$8,652 million at February 2, 2019, and May 5, 2018, respectively. The decrease from February 2, 2019, reflects a reduction from elevated year-end inventory levels. Inventory increased from May 5, 2018 to support current and expected sales and our efforts to improve in-stock levels, including market share opportunities in toys and baby-related merchandise.

Dividends

We paid dividends totaling \$330 million (\$0.64 per share) and \$334 million (\$0.62 per share) for the three months ended May 4, 2019, and May 5, 2018, respectively, a per share increase of 3.2 percent. We declared dividends totaling \$330 million (\$0.64 per share) during the first quarter of 2019, a per share increase of 3.2 percent over the \$333 million (\$0.62 per share) of declared dividends during the first quarter of 2018. We have paid dividends every quarter since our 1967 initial public offering, and it is our intent to continue to do so in the future.

Share Repurchase

We returned \$277 million to shareholders through share repurchase during the three months ended May 4, 2019. See Part II, Item 2 of this Quarterly Report on Form 10-Q and Note 6 to the Consolidated Financial Statements for more information.

Financing

Our financing strategy is to ensure liquidity and access to capital markets, to maintain a balanced spectrum of debt maturities, and to manage our net exposure to floating interest rate volatility. Within these parameters, we seek to minimize our borrowing costs. Our ability to access the long-term debt and commercial paper markets has provided us with ample sources of liquidity. Our continued access to these markets depends on multiple factors, including the condition of debt capital markets, our operating performance, and maintaining strong credit ratings. As of May 4, 2019, our credit ratings were as follows:

Credit Ratings	Moody's	Standard and Poor's	Fitch
Long-term debt	A2	A	A-
Commercial paper	P-1	A-1	F2

If our credit ratings were lowered, our ability to access the debt markets, our cost of funds, and other terms for new debt issuances could be adversely impacted. Each of the credit rating agencies reviews its rating periodically and there is no guarantee our current credit ratings will remain the same as described above.

During the three months ended May 4, 2019, we issued \$1.0 billion of debt in advance of the June 2019 maturity of \$1.0 billion of debt. Notes 4 and 5 to the Consolidated Financial Statements provide additional information.

We have additional liquidity through a committed \$2.5 billion revolving credit facility obtained through a group of banks. In October 2018, we extended this credit facility by one year to October 2023. No balances were outstanding at any time during 2019 or 2018.

Most of our long-term debt obligations contain covenants related to secured debt levels. In addition to a secured debt level covenant, our credit facility also contains a debt leverage covenant. We are, and expect to remain, in compliance with these covenants. Additionally, as of May 4, 2019, no notes or debentures contained provisions requiring acceleration of payment upon a credit rating downgrade, except that certain outstanding notes allow the note holders to put the notes to us if within a matter of months of each other we experience both (i) a change in control; and (ii) our long-term credit ratings are either reduced and the resulting rating is noninvestment grade, or our long-term credit ratings are placed on watch for possible reduction and those ratings are subsequently reduced and the resulting rating is noninvestment grade.

We believe our sources of liquidity will continue to be adequate to maintain operations, finance anticipated expansion and strategic initiatives, fund debt maturities, pay dividends, and execute purchases under our share repurchase program for the foreseeable future. We continue to anticipate ample access to commercial paper and long-term financing.

Contractual Obligations and Commitments

As of the date of this report, other than the new borrowings discussed in Note 4 to the Consolidated Financial Statements, there were no material changes to our contractual obligations and commitments outside the ordinary course of business since February 2, 2019, as reported in our 2018 Form 10-K.

New Accounting Pronouncements

We do not expect any other recently issued accounting pronouncements to have a material effect on our financial statements.

Forward-Looking Statements

This report contains forward-looking statements, which are based on our current assumptions and expectations. These statements are typically accompanied by the words “expect,” “may,” “could,” “believe,” “would,” “might,” “anticipates,” or similar words. The principal forward-looking statements in this report include: our financial performance, statements regarding the adequacy of and costs associated with our sources of liquidity, the funding of debt maturities, the continued execution of our share repurchase program, our expected capital expenditures and new lease commitments, the expected compliance with debt covenants, the expected impact of new accounting pronouncements, our intentions regarding future dividends, the expected return on plan assets, the expected outcome of, and adequacy of our reserves for, claims, litigation and the resolution of tax matters, the expected impact of changes in information technology systems, and changes in our assumptions and expectations.

All such forward-looking statements are intended to enjoy the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, as amended. Although we believe there is a reasonable basis for the forward-looking statements, our actual results could be materially different. The most important factors which could cause our actual results to differ from our forward-looking statements are set forth on our description of risk factors in Item 1A of our Form 10-K for the fiscal year ended February 2, 2019, which should be read in conjunction with the forward-looking statements in this report. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended February 2, 2019.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

During the most recently completed fiscal quarter, the following change to our information technology systems materially affected, or is reasonably likely to materially affect, our internal control over financial reporting:

- We are in the process of a broad multi-year migration of many mainframe-based systems and middleware products to a modern platform, including systems supporting inventory and supply chain-related transactions.

During the most recently completed fiscal quarter, no other change in our internal control over financial reporting materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

No response is required under Item 103 of Regulation S-K, nor have there been any material developments for any previously reported legal proceedings.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended February 2, 2019.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 20, 2016, our Board of Directors authorized a new \$5 billion share repurchase program. We began repurchasing shares under this new authorization during the fourth quarter of 2016. There is no stated expiration for the share repurchase program. Under the program, we have repurchased 52.2 million shares of common stock through May 4, 2019, at an average price of \$69.68, for a total investment of \$3.6 billion, excluding the April 2019 ASR because the transaction was not fully settled as of May 4, 2019. The table below presents information with respect to Target common stock purchases made during the three months ended May 4, 2019, by Target or any "affiliated purchaser" of Target, as defined in Rule 10b-18(a)(3) under the Exchange Act.

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
